Vozes do Povo – Fase II

Contract Addendum

Objective

To enhance the scope and value of the main project publication – the volume entitled, *Sociedade, política e opinião pública na Guiné-Bissau* - by enriching its content and incorporating 15 top-end contributors to the book, including 7 international experts on Guinea-Bissau.

Rationale

The *Vozes do Povo* initiative has created a unique opportunity for collaboration among prominent scholars and experts on Guinea-Bissau. All this with the purpose of generating valuable knowledge on the country´s prospects for democracy and development, and practical insights on how to address the challenges at stake. The wealth of data produced on this country through the public opinion survey, follow-up data mining and focus group interviews provide an exceptional venue for this.

This addendum builds on the project´s original plan to hold a meeting among volume contributors. But it broadens this effort considerably by including a larger number of participants and expanding the activities and output involved. These efforts will strengthen the project´s capacity to generate actionable knowledge, by enhancing the breadth and caliber of the volume published as result of this important collaboration among scholars from various academic and national backgrounds.

An outline of the edited volume and list of the experts involved is provided below.

Activities & Methodology

The project supplement will finance a two-day workshop in Guinea-Bissau in which volume contributors can review and discuss the chapters prepared for publication. This meeting will include a special session to advance sensible ideas, strategies and engagements designed to address the country´s main political and development challenges. This conversation will help inform the volume´s final chapter, geared towards offering practical lessons and insights derived from the findings made through the *Vozes do Povo* initiative.

In addition to the editors and contributors to the volume, the gathering will include a select group of commentators (probably 3 o 4 local experts) who will be invited to take part of the broader exchange. These invitations will be made in consultation with EU Delegation in Bissau.

The workshop will follow the basic structure of the book proposal. A draft copy of the meeting agenda can be found below.

This activity will provide an opportunity to present and gather feedback on the draft chapters prepared for the book. Carrying out this event in an agreeable setting outside Bissau, with

about 20 participants, will create a positive ambiance in which to generate a substantial and constructive debate on Guinean politics and society. Sharing meals and two evenings together will help strengthen group dynamics, foster opportunities for networking, and facilitate time for informal dialogue. Such milieus are conducive to creative ideas and can greatly enrich an enterprise devoted to knowledge production.

Budget

A detailed copy of the budget request for this addendum is provided below. The total sum requested is 12,321 Euros. Of this sum, 58% will cover international air travel (at economy rates) for 7 participants, along with a 2-day per diem to pay for their lodging and meals in Bissau. The lodging, meals, meeting venue and transport to the workshop site would involve close to 35% of total outlay.

We have identified two possible venues for this event. The Slave Memorial in Cacheu and the Uaque Hotel near Mansoa. Budget-wise there appears to be no substantial difference between them. A final decision will be made based on an assessment of the pros and cons of each site.

In establishing the addendum budget, we assumed a meeting of 15 people. The possible inclusion of 3 or 4 additional experts, as noted above, will be paid for by contingency funds included in the financial plan.

The addendum budget, it should be noted, does not include any professional honorariums for additional time and effort involved in preparing an expanded version of the project's main publication.
